

**About CEVO-AI™ Chief Earned Value Officer Artificial Intelligence™ certification**

**CEVO-AI™ Chief Earned Value Officer Artificial Intelligence™** executive certification program is the highest and only globally and industry joint Artificial Intelligence (AI) Earned Value Management (AIEVM), AI Project Control (AIPC), and AI Project Management (AIPM) certification across industry and government.

**CEVO-AI™** is a global EVM, Project Control and Project Management executive credential that recognizes executive-level leaders who require a general understanding of the application, value, and benefits derived from the use of advanced Earned Value Management Systems (EVMS) in the effective and efficient management oversight of very large complex, and high-risk AI projects and programs within their organizations

**CEVO-AI™ Chief Earned Value Officer Artificial Intelligence™** credential certification is a unique executive/senior management level professional development program and course designed for executives and upper management in both Government and Industry who are eager to achieve total project and program management successes

**CEVO-AI™ Chief Earned Value Officer Artificial Intelligence™** program is aimed at the present and next generation of government and business leaders: executives working for dynamic global companies and firms; international organizations and institutions; and government agencies/departments/ministries who need to broaden their horizons in the field and dimensions of earned value management, risk management, project management, technology, engineering, effective and efficient project/program governance; and enhance their prospects of achieving successful project and program execution and results.

**CEVO-AI™ Chief Earned Value Officer Artificial Intelligence™** executive training course offers **3** days of intensive executive-level training in implementation of earned value management, project management, program management, leveraging information technology, finance, strategy, and risk management at the **Corporate C-Suite Level**.

**CEVO-AI™ CHIEF EARNED VALUE OFFICER ARTIFICIAL INTELLIGENCE™ EXECUTIVE CREDENTIAL CERTIFICATION OUTLINE, CURRICULUM & PDUs:**

**CEVO-AI™ PROGRAM MODULES COVERED FROM DAY 1 THROUGH DAY 3:**

The **CEVO-AI™ Chief Earned Value Officer Artificial Intelligence™** curriculum has been designed by a number of internationally recognized professionals and industry experts from the fields of Artificial Intelligence, Earned Value Management, Project Management, Project Control, Risk management, economics, business, finance, information technology, computer engineering, and government.

With its newly revised program, the **CEVO-AI™ Chief Earned Value Officer Artificial Intelligence™** formula is challenging, rewarding, and exciting for all project executives in AI regardless of their industry domain or solution delivery. The curriculum will have a lasting effect and positive impact on the way you manage and execute AI projects at an executive and senior management level and provide you with applicable knowledge to manage and deliver your AI projects successfully and delivered from **start to finish, without schedule delays, cost overruns, poor quality, and technical scope related issues.**

The **CEVO-AI™ Executive Dashboard™** training module, among others, will provide hands-on techniques and methods to enable better earned value management metrics and performance reporting. It is reported that between 75% and 85% of total projects done globally are executed over budget and behind schedule. The **CEVO-AI™ Chief Earned Value Officer Artificial Intelligence™** participant will gain insight into how to provide excellent leadership and mastery of execution best practices within their organizations to overcome and prevent this recurring and alarming trends of poor project delivery outcomes.
