

# ABOUT SPMP<sup>™</sup> SCHEDULE & PLANNING MANAGEMENT PROFESSIONAL<sup>™</sup> CERTIFICATION

"In **project management**, a schedule is a listing of a project's milestones, activities, and deliverables. Usually, dependencies and resources are defined for each task, then start and finish dates are estimated from the resource allocation, budget, task duration, and scheduled events. A schedule is commonly used in the project planning and project portfolio management parts of project management. Elements on a schedule may be closely related to the work breakdown structure (WBS) terminal elements, the Statement of work, or a Contract Data Requirements List" according to Wikipedia.com.

In the space and sphere of Project Management and Project Control, the **SPMP<sup>TM</sup> Schedule & Planning Management Professional<sup>TM</sup>** is the accountable and responsible person who fully develops, plans, manages, executes, controls and monitors, tracks and updates, and communicates all the Schedule and Planning aspects and efforts of a Project/Program in a regular frequency, and disseminates all the Schedule and Planning information at all stages and time-lines of the Project, and throughout the life-cycle, to all its stakeholders including the Project Managers, Project Executives and C-suite Executives
